Notes:

- J = Compound detected in the method or prep blank.
- Jv = Result is considered to be an estimated value based on data validation.
- B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.
- B = Analyte was detected below the quantitation limit, but above the MDL.
- B J = Analyte was detected in method blank and below the quantitation limit.
- B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.
- UJ = Analyte is considered not detected for QA/validation reason.
- U = Not Detected.

Notes:

- J = Compound detected in the method or prep blank.
- Jv = Result is considered to be an estimated value based on data validation.
- B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.
- B = Analyte was detected below the quantitation limit, but above the MDL.
- B J = Analyte was detected in method blank and below the quantitation limit.
- B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.
- UJ = Analyte is considered not detected for QA/validation reason.
- U = Not Detected.

Notes:

- J = Compound detected in the method or prep blank.
- Jv = Result is considered to be an estimated value based on data validation.
- B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.
- B = Analyte was detected below the quantitation limit, but above the MDL.
- B J = Analyte was detected in method blank and below the quantitation limit.
- B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.
- UJ = Analyte is considered not detected for QA/validation reason.
- U = Not Detected.

Notes:

- J = Compound detected in the method or prep blank.
- Jv = Result is considered to be an estimated value based on data validation.
- B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.
- B = Analyte was detected below the quantitation limit, but above the MDL.
- B J = Analyte was detected in method blank and below the quantitation limit.
- B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.
- UJ = Analyte is considered not detected for QA/validation reason.
- U = Not Detected.

Notes:

- J = Compound detected in the method or prep blank.
- Jv = Result is considered to be an estimated value based on data validation.
- B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.
- B = Analyte was detected below the quantitation limit, but above the MDL.
- B J = Analyte was detected in method blank and below the quantitation limit.
- B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.
- UJ = Analyte is considered not detected for QA/validation reason.
- U = Not Detected.

Notes:

J = Compound detected in the method or prep blank. B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

Jv = Result is considered to be an estimated value based on data validation. B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B = Analyte was detected below the quantitation limit, but above the MDL. UJ = Analyte is considered not detected for QA/validation reason.

B J = Analyte was detected in method blank and below the quantitation limit. U = Not Detected.

Notes:

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected below the quantitation limit, but above the MDL.

B J = Analyte was detected in method blank and below the quantitation limit.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

UJ = Analyte is considered not detected for QA/validation reason.

U = Not Detected.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected below the quantitation limit, but above the MDL.

BE = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

BG = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

BJ = Analyte was detected in method blank and below the quantitation limit.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

- J = Compound detected in the method or prep blank.
- Jv = Result is considered to be an estimated value based on data validation.
- B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.
- B = Analyte was detected below the quantitation limit, but above the MDL.
- B J = Analyte was detected in method blank and below the quantitation limit.
- B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.
- UJ = Analyte is considered not detected for QA/validation reason.
- U = Not Detected.

Notes:

- J = Compound detected in the method or prep blank.
- Jv = Result is considered to be an estimated value based on data validation.
- B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.
- B = Analyte was detected below the quantitation limit, but above the MDL.
- B J = Analyte was detected in method blank and below the quantitation limit.
- B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.
- UJ = Analyte is considered not detected for QA/validation reason.
- U = Not Detected.

Notes:

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B = Analyte was detected below the quantitation limit, but above the MDL.

B J = Analyte was detected in method blank and below the quantitation limit.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

UJ = Analyte is considered not detected for QA/validation reason.

U = Not Detected.

Notes:

- J = Compound detected in the method or prep blank.
- Jv = Result is considered to be an estimated value based on data validation.
- B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.
- B = Analyte was detected below the quantitation limit, but above the MDL.
- B J = Analyte was detected in method blank and below the quantitation limit.
- B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.
- UJ = Analyte is considered not detected for QA/validation reason.
- U = Not Detected.

Notes:

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B = Analyte was detected below the quantitation limit, but above the MDL.

B J = Analyte was detected in method blank and below the quantitation limit.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

UJ = Analyte is considered not detected for QA/validation reason.

U = Not Detected.

Notes:

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B = Analyte was detected below the quantitation limit, but above the MDL.

B J = Analyte was detected in method blank and below the quantitation limit.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

UJ = Analyte is considered not detected for QA/validation reason.

U = Not Detected.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B J = Analyte was detected in method blank and below the quantitation limit.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

U = Not Detected.

B = Analyte was detected below the quantitation limit, but above the MDL.

UJ = Analyte is considered not detected for QA/validation reason.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

U = Not Detected.

UJ = Analyte is considered not detected for QA/validation reason.

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.

B = Analyte was detected below the quantitation limit, but above the MDL.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B J = Analyte was detected in method blank and below the quantitation limit.

Notes:

- J = Compound detected in the method or prep blank.
- Jv = Result is considered to be an estimated value based on data validation.
- B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.
- B G = Analyte was detected above the MDL but below the quantitation limit. Elevated RL due to matrix interference.
- B = Analyte was detected below the quantitation limit, but above the MDL.
- B J = Analyte was detected in method blank and below the quantitation limit.
- UJ = Analyte is considered not detected for QA/validation reason.
- U = Not Detected.

Notes:

J = Compound detected below the quantitation limit, but above the MDL.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected in method blank.

B J = Analyte was detected in method blank and below the quantitation limit.

UJ = Analyte is considered not detected for QA/validation reason.

U = Not Detected.

R = Rejected sample due to QA/validation reason.

Notes:

J = Compound detected below the quantitation limit, but above the MDL.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected in method blank.

B J = Analyte was detected in method blank and below the quantitation limit.

UJ = Analyte is considered not detected for QA/validation reason.

U = Not Detected.

R = Rejected sample due to QA/validation reason.

Notes:

J = Compound detected below the quantitation limit, but above the MDL.

Jv = Result is considered to be an estimated value based on data validation.

B = Analyte was detected in method blank.

B J = Analyte was detected in method blank and below the quantitation limit.

UJ = Analyte is considered not detected for QA/validation reason.

U = Not Detected.

R = Rejected sample due to QA/validation reason.

Notes:

J = Compound detected below the quantitation limit, but above the MDL.
 Jv = Result is considered to be an estimated value based on data validation.
 B = Analyte was detected in method blank.
 B J = Analyte was detected in method blank and below the quantitation limit.

UJ = Analyte is considered not detected for QA/validation reason.
 U = Not Detected.
 R = Rejected sample due to QA/validation reason.

Notes:

J = Compound detected below the quantitation limit, but above the MDL.
 Jv = Result is considered to be an estimated value based on data validation.
 B = Analyte was detected in method blank.
 B J = Analyte was detected in method blank and below the quantitation limit.

UJ = Analyte is considered not detected for QA/validation reason.
 U = Not Detected.
 R = Rejected sample due to QA/validation reason.

Notes:

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated reporting limit due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B = Analyte was detected below the quantitation limit, but above the MDL.

UJ = Analyte is considered not detected for QA/validation reason.

U = Not Detected.

Notes:

J = Compound detected in the method or prep blank.

Jv = Result is considered to be an estimated value based on data validation.

B G = Analyte was detected above the MDL but below the quantitation limit. Elevated reporting limit due to matrix interference.

B J = Analyte was detected in method blank and below the quantitation limit.

B E = Analyte was detected above the MDL but below the quantitation limit. Matrix Interference.

B = Analyte was detected below the quantitation limit, but above the MDL.

UJ = Analyte is considered not detected for QA/validation reason.

U = Not Detected.
